

Hi Bob,

We just finished our first MLS Board Meeting of 2009 and I wanted to provide to you in writing the consensus of the board regarding the map.

1) We do not wish to change our numerical "precinct" areas. Use them as they presently exist and if the boundaries must be approximate; that's okay. Go ahead and fade them down like we talked about and overlay with a 1-2-3, A-B-C grid.

2) We would like an enlarged Port Angeles city map in the lower left hand corner.

Thank you for your consideration and your hard work putting this together.

Respectfully,

Jim Wahlsten,
